Advanced Surface Care

REPEL™
Glass & Surface Cleaner
25 FL OZ.(740 ml)/1 Gal.(3.84 l)

REPEL™ is a patent-pending surface care technology that cleans glass – without streaking or smearing – and simultaneously forms and bonds an invisible barrier coating to the now-cleaned glass to resist re-soiling by water, dirt, grime, dust & fingerprints.

This storage-stable, solvent-free spray product is non-toxic to users and is earth safe. The nano-scale water repellent barrier coating dramatically reduces the adhesion & buildup of re-soiling for easier next-time cleaning. It makes glass almost self-cleaning!

The REPEL barrier is a unique hydrocarbon coating that improves the transparency of glass. With each cleaning use, the REPEL barrier coating is automatically rejuvenated to maintain peak performance.
