Lasting Protection for the Life of Glass

Complete Restoration, Protection & Aftercare

**ARCHITECTURAL GLASS, SHOWER ENCLOSURES, WINDOWS, SANDBLASTED GLASS, SOLAR GLASS & MORE****RESTORE:****Glass Scrub® Water Spot & Stain Remover**

Ready to Use- mild abrasive, high performance cream cleanser designed to restore stained glass. It removes tough dirt, grime, minerals, rust and pollutants. It cleans & renews glass and other surfaces to a "new" appearance, prior to protecting with a coating/sealer. Safe on all glass, porcelain, ceramics, aluminum and other metals.

**RESTORE:****Invisible Shield® Pre-Cleaner/Restorer**

Effective acid based liquid pre-cleaner and restorer. Cleans, degreases and descales older/stained glass. Cuts through heavy stains and build-up prior to sealing glass with the Invisible Shield® Glass Coatings. Versatile applications include cleaning/restoration of glass, porcelain, ceramics, stainless steel, aluminum, laminates and plastics. Available in concentrate only.

**RESTORE:****Clean-X® Lime Scale Remover**

Superior acid based, spray bathroom cleaner & lime scale remover liquid. Cleans, degreases and descales stained shower glass & other bathroom surfaces. Applications include the cleaning of all glass, porcelain, ceramics, stainless steel, aluminum, laminates and plastic surfaces.

**PROTECT:****Invisible Shield® Glass & Surface Coating (Original)**

Ready to Use- Nano scale, hydrophobic glass & surface coating for all glass, porcelain and ceramics. Invisible Shield protects from months to years on windows, shower glass, facades, toughened glass, laminates, sand blasted glass, mirrors & skylights with lasting water, soil & stain repellent protection. It never builds up, cracks or discolors. Solvent based & storage stable. Safe on AR, laminated/insulated, other types of glass, metals and aluminum. (unlimited shelf life)

**PROTECT:****Invisible Shield® PRO 15 Glass Coating**

Ready to Use- Complex, high performance, nano scale hydrophobic glass coating that molecularly bonds to all residential & architectural glass to make it remarkably water, soil, stain and corrosion resistant. It prevents permanent staining, fine scratches, pitting, etching and other damage that can permanently affect the condition, transparency and appearance of glass. It improves scratch resistance up to almost 93% and applies an anti-corrosion barrier that is twice as durable as the standard Invisible Shield Glass Coating. Solvent based, UV & IR curable. Backed by a limited 15 year warranty. Safe on AR, laminated/insulated, other types of glass including solar, metals and aluminum. (unlimited shelf life)

**DUAL ACTION:****Sani-Shield® 3 in 1 Surface Care**

1-Step Cleaner, Deodorizer and Protectant. Cleans with the power of hydrogen peroxide and provides an antimicrobial, water, soil & stain resistant barrier to all horizontal and vertical hard surfaces. Prevents odor causing bacteria, and mold and mildew stains. Requires no rinsing. Available in concentrate for various dilutions in cleaning/ sanitation.

**DUAL ACTION:****Sani-Scrub® 3 in 1 Surface Cleanser**

Light abrasive cream cleanser removes tough stains from glass, porcelain, ceramic, stainless steel, granite and acrylic while simultaneously protecting with an invisible barrier on which odor causing bacteria, mold and mildew stains will not grow in between cleaning. Prevents buildup of soil & grime for easier cleaning.

**DUAL ACTION:****REPEL® Glass & Surface Cleaner**

1-Step Cleaner/Coating Technology. Low surfactant/ VOC-free formula offers easy "spray & wipe" cleaning & protection for glass, porcelain, ceramic, stainless steel, stone, aluminum, laminates and plastics. Ammonia free! REPEL is recommended to clean, protect and maintain hard surfaces -also previously treated glass and ceramic surfaces with the Invisible Shield® Glass Coatings.

**DUAL ACTION:****Invisible Shield REPEL 263 (For Glass Washing System)**

A water-based (aqueous) low surfactant/VOC- free "dual-action" technology that applies a hydrophobic coating with "value added" cleaning benefits. Available in concentrate and designed to be used with automated glass washing systems. Safe on all glass, porcelain, ceramics, aluminum, stainless steel, metals, laminates and plastics.

**MICROBURST, Vertical Two-Sided Coating Machine****Binks Trophy Spray Gun****Polishing Pads**

Products available in: Ready to Use (RTU) 296mL, 473mL, 739mL, 946mL, 16oz, 32oz, gallon to 55 gallon.

Unelko's products are UV resistant, storage stable & free of harsh chemicals.

Unelko is committed to offering the industry's finest glass and surface cleaning, protection and aftercare products. Additional marketing/product information and surface protection programs can be offered to suit your needs.
